# Processes

Our proven processes, produces results.

**Identification** - We identify viable social impact projects.

7

**Funding** - GRUE mobilizes funds in order to bring them to completion but our work does not stop there, we are involved in every step of the way.

**Partnering** - We partner with renowned engineering and construction companies and proven operators to bring the projects to function.

**Reviewing** - Third-party inspection firm monitors the development and disbursement of funds for every project to the benefit of all parties.

# Philanthropy

Grue believes not only in our own responsible business practices and corporate accountability for all actors, but also in community development and philanthropic causes.

8

Not only do we help and empower local communities, we are always looking for new opportunities and respond to calls for help when needed.

We have used our contacts in various African governments to facilitate the work of NGOs and will continue to do so in the future.

We are full supporters of human rights and work to empower Africa; GRUE sponsored the many Development Goals Award ceremony celebrating the African who contributed the most toward leading their country to meet the Millennium Development Goals milestones at the United Nation Headquarters in New York City.

We are aware that some projects could have an adverse impact on a few discrete groups and will prevent any potential harm.

We will always strive to advocate on be-half of affected communities, the disenfranchised and the voiceless.
